Set Matter 1		Favor	Eric L Gray	We need more mental health and substance use disorder beds. There is always conflicts and set backs when you mix populations that aren't ready for each other. increasing access to mental health and substance use disorder beds will improve the quality and conditions for non mental health and substance use disorder facilities by decreasing the number of individuals impacted by those disabling conditions that rotating in and out of there facilities that aren't equipped w/ the staff and treatment plans to accommodate these disabling conditions.
